

MMP 240 MIDTERM GRADING RUBRIC

OVERVIEW

This rubric will be used to grade your Midterm Projects.

CONTENT

NAME	%	DESCRIPTION
Content: Structure	10	Required pages present: (1)Home Page named index.html, (2)Your Article, (3)A second article (preferably by your groupmate). I removed the requirement for a fourth About page.
Content: Quality and Attribution	15	Each page has: (1) Site Header, (2) Navigation, (3) , Site Footer, (4) Page content. The first three should be the same on every page. Content should include images and text.

DESIGN

NAME	%	DESCRIPTION
Visual Design: Layout	10	The page layout that you have used presents the content in a way that makes it clear where one section of content ends and the next begins and puts content in an order that makes it easy for the user to view content.
Visual Design: Typography	10	Text is readable, scannable and typographic elements (color, size, font etc) are used to create a hierarchy of content. The typographic hierarchy should be consistent across content of the same type and across pages.
Interaction Design	10	Navigation is present, clickable items (links, buttons) are clearly clickable, and it's clear what will happen if an item is clicked.

FOUNDATIONS: HTML, CSS, STRUCTURE, DELIVERY

NAME	%	DESCRIPTION
HTML	15	You have a good HTML structure and the HTML is valid and semantic.
CSS: Basic	15	The syntax is correct. Selectors used appropriately. Classes and IDs are named appropriately. CSS is in external, linked stylesheets.
CSS: Grid	10	You have used CSS Grid to create your layout
Delivery: GitHub Pages	5	Your site is on GitHub Pages. The Home page is named index.html
